

STARVIEW™

Vacuum Packaging Machines For Food Applications VGF Series

The **VGF-200** vacuum packaging machine is designed for difficult or larger size products. The external evacuation system allows vacuum sealing of the product without having to be placed into a chamber.

Model VGF-200

Model VGF-70

Model VGF-30

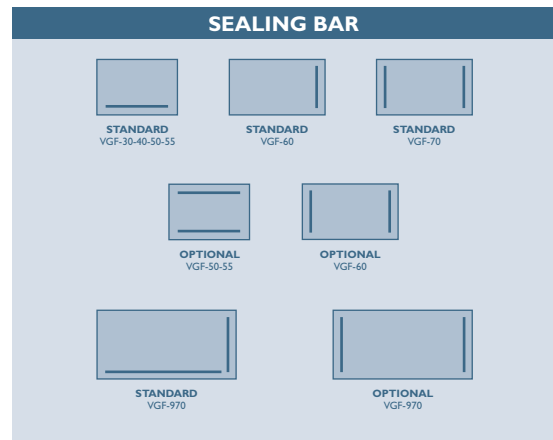

The *VGF Series* of *Vacuum Packaging* machines are available in a variety of sizes, in both table-top and self-standing units. All models are equipped with the most up-to-date technologically advanced vacuum pumps, which guarantee total reliability and long-term performance. The entire *Series* is fabricated in stainless steel, and can be supplied with gas injection capabilities (*optional*). A choice of various chamber sizes, seal bar configurations, length, and vacuum pump sizes are available for all different applications.

SPECIFICATIONS
