MS SERIES
GENERAL PURPOSE SHUTTLE BLISTER SEALING MACHINE

YOUR MARKET ... OUR SOLUTIONS

MS Series manual shuttle blister sealers are designed and built for industrial applications. These machines are simply designed for ease of operator training and operation. An efficient heating system keeps power consumption low. This series machines can adapt to seal blister packages for a wide range of products by simply changing the tooling. These systems are competitively priced making them ideal for contract packagers, Club Store packaging or large products with lower volumes. The **MS Series** shuttle sealers will provide years of dependable performance with a minimum of maintenance.

MS Series manual shuttle machines are available with larger nominal sealing areas of 18 x 24 inches, 24 x 30 inches and 24 x 36 inches.

For machines capable of higher production rates please consider Starview's **RB, ERB, FAB, BSC** & **CBS Series**.

MS2-1824

the STARVIEW ADVANTAGE

- A heavy-duty industrial unit that can produce packages that look like they were produced on a high production machine.
- Uses quick-change cost effective multi-ply hardwood or durable aluminum tooling.
- Standard size sealing area SB Series machines available to produce lower volume or smaller retail packages
- Digital temperature controller and electronic sealing cycle timer for process repeatability.
- Industry leading design, construction, features and customer support
