MRTS SERIES
MANUAL TWO STATION ROTARY FILM TO TRAY FOOD PACKAGING MACHINES

YOUR MARKET ... OUR SOLUTIONS

Starview's **MRTS Series** are designed and competitively priced for "fresh counter" packaging, typically a clear or printed film to a preformed tray for food manufacturing companies, catering, grocery stores, delicatessens, etc. The **MRTS Series** is ideal for low to medium production. This series machines can adapt to seal for a wide range of product tray sizes by simply changing the tooling. The **MRTS Series** machines trim the film to the profile of the tray and automatically rewind the scrap web. The MRTS Series sealers will provide years of dependable performance with a minimum of maintenance.

For machines capable of higher production rates please consider Starview's **AITS** or **RTS4 Series** machines. Where modified atmosphere packaging for extended shelf life is needed consider any of the machines with MAP capability.

the STARVIEW ADVANTAGE

- A wide range of standard and custom features available to match customer requirements.
- Uses quick-change anodized aluminum tooling.
- Eficient two-station design makes the MRTS Series ideal for medium volume production and work-cell manufacturing. Allows operators to load and unload trays in one station while the second station is being sealed, vacuum pulled and gassed (if MAP) and trimmed.
- Color touch screen HMI for the ultimate in operator convenience, accessibility and process repeatability.
- Automatic film feed, seal & trim and scrap rewind for clear or random print film. Registered print film feed optional.
- Stainless steel wash down construction to allow cleaning in a food handling environment.
- Industry leading design, construction, features and customer support.
